

Environmental Policy

Our mission is to partner with our customers to deliver fresh, agile, and innovative solutions to the maintenance and installation of critical systems.

Precise Air Group is committed to supporting our people to drive the values that are important to our business and enable us to deliver on our commitments to our customers every day

This commitment includes the prevention of pollution and harm to the natural, heritage and built environments and to reduce the use of all raw materials, energy, and supplies

Our commitment to the Environment is underpinned by our four Company values

Integrity

- Effectively managing our significant environmental impacts, monitoring progress, and reviewing environmental performance against objectives and targets on a regular basis to drive continuous improvement, and meeting the requirements of ISO 14001 environmental management systems standard.

Safety

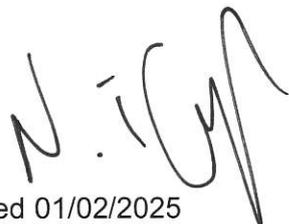

- Implementing a rigorous hazard and risk management approach to the identification and control of activities, products and services which interact with the environment and their associated potential Impacts, , this includes assessing the potential impacts of climate change.
- Driving environmentally efficient solutions and processes, as well as operating facilities that are environmentally sound, prevent pollution, conserve resources and energy, minimise the use of hazardous materials and reduce waste

Customers

- Complying with all applicable environmental legislation, contractual and other necessary requirements related to our activities and assist customers and suppliers to use products and services in an environmentally sensitive way.
- Consulting and working closely with our customers and other relevant stakeholders, considering local environmental conditions, and working with local communities to achieve shared and lasting outcomes.
- Ensuring that this Policy is made available to interested parties.

People

- Ensuring that our policies, objectives, and our environmental impacts are communicated to all persons working for and on behalf of the business and to provide education and training of employees in environmental issues and the environmental effects of their activities.
- Ensuring that Environmental responsibilities are clearly communicated and understood.
